Digital electronic angle gauge – precise, optimal measurements into the last corner

Rev0115

1. Precisely measure inside or outside angles from 0-220°: measurements of roof angle, fitting furniture or windows at corners and edges.

2. Additional extensible bevel for measuring angles in difficult to reach locations.

- Robust **aluminium housing**
- **Vertical and horizontal level vials**
- An **illuminated LC display** on each side (front and rear) to permit work at either side.
- Both displays can be flipped at the touch of a button: **FlipDisplay**
- **Auto shut-off function**
- **Auto hold:** for work where the LC display is not visible.
- **Angle bisection** displayed at the touch of a button, even in hold mode; optimal for mitre cuts.
